

ALL-IN-ONE SOLUTION

LemonadeLXP

**Empower Staff. Delight Users.
Reduce Spend.**

LemonadeLXP is an all-in-one learning and enablement platform for organizations that need more than a basic LMS or static help content. By combining learning management, content authoring, support, and user education into a single platform, LemonadeLXP transforms how you train employees, support users, and share knowledge. The result? More confident employees and well-informed users that drive business results—without the cost and complexity of managing multiple disconnected solutions.

Three Powerful Modules. One Seamless Experience.

- 1 LLXP Learn** – Elevate internal training with modern microlearning, personalized paths, and real-world application. Boost confidence, engagement, and product adoption.
- 2 LLXP Academy** – Deliver branded, self-serve learning experiences that empower customers and partners, reduce support strain, and drive digital adoption.
- 3 LLXP InsightAI** – Cut content creation and maintenance time by 80%, while providing instant, accurate learning and support with AI-powered automation and real-time updates.

Your Savings Snapshot

With LemonadeLXP, organizations can replace and reduce spend on:

- ▼ **LMS** – Replace expensive, outdated learning systems with a modern, engaging platform.
- ▼ **Customer Academy** – Launch a branded, education hub without adding new tools.
- ▼ **Authoring Tool** – Turn static documents into microlearning modules with built-in AI-powered content creation.
- ▼ **Knowledge Base** – Replace siloed, static content with a dynamic, always-current resource.
- ▼ **Compliance Training** – Simplify regulatory learning with engaging, interactive learning.
- ▼ **AI Chatbot** – Provide real-time, in-the-flow support without a separate chatbot tool.
- ▼ **Content Library** – Tap into pre-built content to jumpstart training and enablement.
- ▼ **Digital Adoption Tools** – Drive faster adoption of digital tools with interactive tech walkthroughs in minutes.

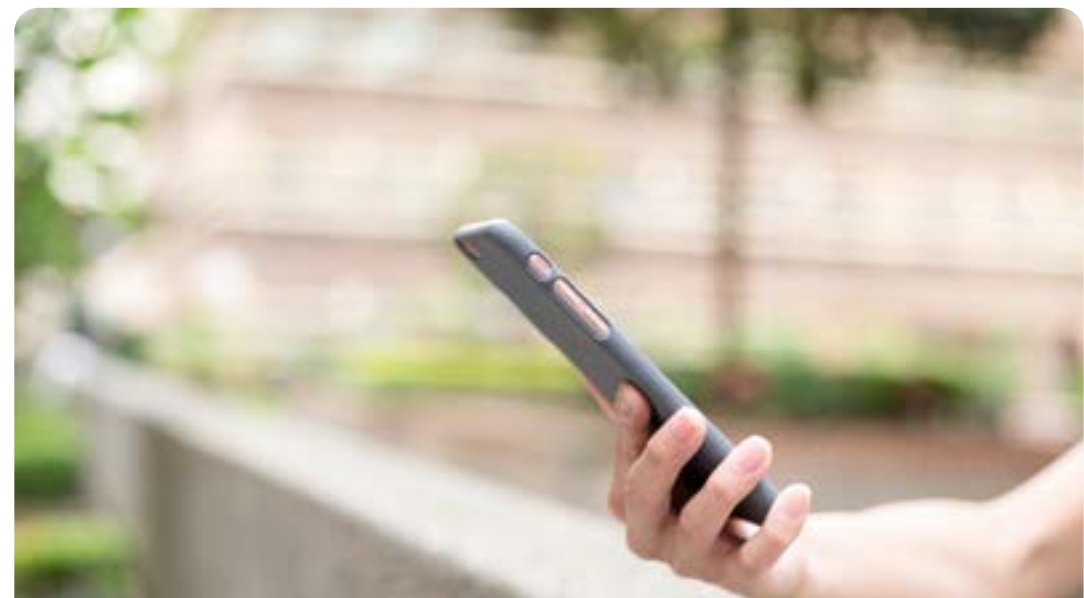

Smart Learning Meets Smart Technology

Bite-Sized Engagement

Microlearning, games, and simulations make learning addictive and efficient.

In-the-Flow Reinforcement

AI-powered assistant delivers answers when and where they're needed.

Real-Time Content and Updates

AI-generated content tailored to role and need; updates sync instantly from your internal knowledge base.

Science-Backed Learning

Distributed practice, spaced repetition, and gamification **improve retention** and application.
